From: Commanding Officer.
To : Chief of Staff, Island Command.
Via: Commanding Officer, ACORN-35.

Subj: Base Aviation Supply Department's move to Navy Field - Request for transportation.

1. The subject activity has a tremendous amount of material to move to the new Navy Field, both from the North Field and ACORN-39 compound.
2. It is felt that this move can best be handled by temporary assignment of trucks and drivers to the subject activity. It also appears desirable to begin this move as soon as warehouse facilities at the new Navy Field are completed.
3. In accordance with the above, it is requested that four 4' x 4' or 6' x 6' trucks with drivers be assigned for twelve hours per day to Aviation Supply Dept as soon as the new warehouse facilities are completed. It is estimated that these four trucks will be required for a total of thirty days before, during and after the move of this unit to the new location.
4. If this request is granted the Aviation Supply Officer, Lt(jg) Cornuelle, will notify the G-4 Section of the addressee when the new facilities are sufficiently completed to make such assignment of trucks practical.

J. S. PURNELL.

cc: CO, ACORN 39.
